Gary,

Attached is the version with my comments. Carl had no additional comments. Highlights are the editorial. The only major comment I have is please include what Agency a container or discharge was referred to. As soon as the highlights are corrected and the Agencies referred to are included, it is ready for signature and processing.

Craig

Craig:

This is the final document for the Alpha Transition. Since everyone has seen this many time, I assume that it is fine but I will give you guys another look for glaring omissions or errors. I would like to get this signed today or tomorrow.

Thanks
